

WG-34703 CUT

WOLFGUARD WG-34703 CUT

The Perfect Combination of Durability, Safety, and Comfort

Product Features

- DYNEEMA® Yarn Technology
Offers high strength and comfort, ensuring reliability in professional work environments.
- MicroFinish Foam Nitrile Coating
Applied to the palm for superior grip performance in dry and lightly oily conditions.
- Between-Finger Reinforcement
Provides extra protection against abrasion and cuts, extending glove lifespan.
- Flexible & Ergonomic Structure
Perfectly conforms to the hand, reducing fatigue and boosting productivity.
- Oeko-Tex Textile Quality
Made from skin-friendly and dermatologically safe materials.
- Silicone-Free Composition
Ensures safe use with a health- and eco-conscious design.

Certifications

- EN 388: 4.X.4.3 C
Meets high standards for cut, abrasion, and puncture resistance.

Application Areas

- Construction sector
- Oily assembly operations
- Logistics and transportation
- Agriculture and gardening
- Iron and steel industry
- Automotive sector
- Cleaning and maintenance services

WOLFGUARD WG-34703 CUT delivers durability, safety, and comfort in one innovative package. With advanced technology and ergonomic design, it's an indispensable solution for demanding professional environments.
