

WG-35703 CUT

WOLFGUARD WG-35703 CUT

Durability Against Cuts, Comfort, and Innovative Design

Product Features

- DYNEEMA® Yarn Technology
Provides high strength and comfort for demanding tasks, ensuring long-lasting performance.
- MicroFinish Foam Nitrile Coating
Applied to the palm for superior grip in dry and lightly oily environments.
- Between-Finger Reinforcement
Offers extra protection against cuts and abrasion, enhancing workplace safety.
- Palm Grip Dots
Improve traction on oily surfaces and delay wear for extended glove life.
- Flexible & Ergonomic Structure
Ensures a perfect fit with reduced hand fatigue, boosting productivity.
- Oeko-Tex Textile Quality
Made from skin-friendly materials, dermatologically safe.
- Silicone-Free Composition
A health-conscious and eco-friendly design for safe use.

Certification

- EN 388: 4.X.4.3 C
Meets high standards for cut, abrasion, and puncture resistance.

Application Areas

- Construction and building sector
- Oily assembly operations
- Logistics and transportation
- Agriculture and gardening
- Iron and steel industry
- Automotive sector
- Cleaning and maintenance services

WOLFGUARD WG-35703 CUT offers a safe, comfortable, and durable working experience under demanding conditions, thanks to its innovative design and advanced protection features. It's the perfect choice for achieving top performance in professional work environments.
