

## WG-37705 CUT

### WOLFGUARD WG-37705 CUT

Exceptional Durability, Superior Grip, and Enhanced Efficiency

#### Product Features

- **DYNEEMA® Yarn Technology**  
Delivers high strength and comfort for demanding tasks, ensuring reliable long-term use.
- **MicroFinish Foam Nitrile Coating**  
Special palm coating provides excellent grip and improved control in dry and lightly oily environments.
- **Palm Grip Dots**  
Enhance traction and delay wear, extending glove lifespan.
- **Flexible & Ergonomic Design**  
Perfect hand fit reduces fatigue, enabling long and productive work sessions.
- **Oeko-Tex Textile Quality**  
Made from skin-friendly materials, dermatologically approved for safe use.
- **Silicone-Free Composition**  
Prioritizes user health and environmental safety with a clean, responsible design.

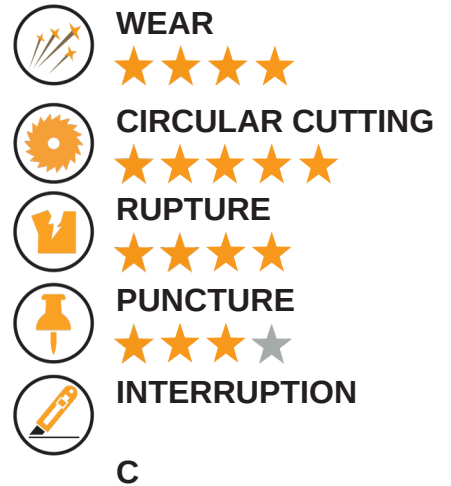

#### Certifications

- **EN 388: 4.X.4.3 C** – Meets international standards for cut, abrasion, and puncture resistance

#### Application Areas

- Construction and building operations
- Oily assembly and technical tasks
- Logistics and transportation
- Agriculture and gardening
- Iron and steel industry
- Automotive sector
- Cleaning and maintenance services

WOLFGUARD WG-37705 CUT combines innovative features with robust construction, making it a trusted choice for professionals facing the toughest work conditions. Its ergonomic design and high-performance grip simplify workflows and boost productivity.
