WOLFGUARD WG-45

The Next-Generation Solution for Durability and Comfort

Product Features

- Nitrile Coating Technology
Designed with a modern approach, the nitrile coating delivers superior durability and comfort in demanding tasks.
- High Oil Resistance
Ensures excellent performance on oily surfaces, enhancing workplace safety.
- Ultra Abrasion Resistance
Offers long-lasting use under tough conditions, standing out with its durability.

Advantages

- Reliable protection in harsh work environments
- Innovative design combining comfort and durability
- Maximum performance when working on oily surfaces

Application Areas

- Oily surface operations
- Industrial work sites
- Technical and precision assembly tasks

WOLFGUARD WG-45 combines resilience and comfort to meet the expectations of professional users. It's the ideal choice for maximum performance under challenging conditions.
