WG-67503 OIL

WOLFGUARD WG-67503

Superior Performance with Dual Coating Technology

Key Features

Specially engineered for demanding work environments, the WG-67503 meets professional expectations with its liquid-resistant dual nitrile coating, ergonomic design, and skin-friendly textile. It's the ideal solution for users seeking both protection and comfort.

TECHNICAL SPECIFICATIONS

- Dual-Layer Nitrile Coating
Ensures maximum grip and liquid resistance on oily and wet surfaces.
- Foam Nitrile Palm Coating
Enhances grip strength, reducing the risk of slippage and improving workplace safety.
- Flexible & Ergonomic Design
Supports comfort and efficiency during extended use.
- Oeko-Tex Certified Cottony Liner
Breathable, soft inner surface that's gentle on the skin.
- Silicone-Free Composition
A health- and eco-conscious formulation.

ADVANTAGES

- Excellent resistance to liquids and oils for broad application range
- Enhanced safety through dual coating technology
- Soft texture and ergonomic fit
- Comfortable wear for sensitive skin

APPLICATION AREAS

- Construction & Building Industry
- Oily Assembly Operations
- Logistics & Transportation
- Agriculture & Gardening
- Iron & Steel Industry
- Automotive Sector
