WG-703 TOUCH

WOLFGUARD WG-703 TOUCH

A New Definition of Precision, Durability, and Comfort

Key Features

Designed for professionals seeking comfort, control, and long-lasting performance in demanding industrial environments, WG-703 TOUCH leads the way in next-generation safety solutions with FULLGRIP technology and advanced nitrile coating.

Technological Highlights

• Nitrile Coating Technology

Offers superior durability and abrasion resistance compared to polyurethane. Ensures maximum grip even on oily surfaces.

• Cotton-like FULLGRIP Liner

Perfectly conforms to hand shape, reducing tendon strain and enhancing ergonomic comfort.

• Palm Nitrile Coating

Provides secure grip and control on challenging surfaces.

Advantages

- Maximum control and durability in precision tasks
- Ergonomic structure reduces hand fatigue
- Comfortable, extended use with FULLGRIP technology

Application Areas

- Industrial Assembly & Fine Workmanship
- Safe Performance on Oily Surfaces
- Technical Maintenance & Detailed Assembly Tasks

WG-703 TOUCH is a solution that blends safety and comfort to meet the demands of the modern industrial world.
