

## WG-75603

**WOLFGUARD WG-75603**  
Innovative Coating Technology & Superior Comfort  
Product Features

- Nitrile Coating  
Delivers exceptional grip performance on both oily and dry surfaces, ensuring reliable use in demanding tasks.
- Lightweight & Thin Design  
Ultra-thin nitrile coating offers a bare-hand feel, enhancing efficiency during extended work periods.

• Cotton-like Texture  
Dermatologically approved, skin-friendly structure provides lasting comfort for prolonged use.

- DMF & Silicone-Free Composition  
Free from harmful substances—safe and user-friendly design.

#### Advantages

- High-performance grip technology for safe handling on all surfaces
- Lightweight and ergonomic design for maximum comfort during work
- Specially developed texture for sensitive skin, ensuring a pleasant working experience
- Use of health- and eco-friendly materials

#### Certifications

- EN 388: 4.X.3.2 A – Complies with durability and safety standards

#### Application Areas

- Oily Surfaces: Ensures safe operation with maximum grip performance
- Assembly & Precision Tasks: Ideal for jobs requiring delicate handling and control
- Dry Work Environments: Designed for superior comfort and efficiency

WOLFGUARD WG-75603 is an indispensable solution for professional users, combining innovative coating technology with ergonomic design. Its long-lasting, safe, and comfortable structure delivers modern solutions for today's industrial needs.
