

## ALZ-4530

**WOLFGUARD ALZ-4530  
Industrial Workwear Offering Superior Protection in High-Temperature  
Environments**

Designed for extreme heat conditions, the ALZ-4530 provides maximum thermal protection and ergonomic comfort. Certified to European safety standards, it's the trusted choice for professionals in metal production and heavy industry.

### Product Features

- **Industrial-Grade Heat Protection**  
Reduces thermal stress in environments with intense radiant heat, such as iron, steel, and aluminum production
- **Extreme Temperature Resistance**  
Offers superior protection against temperatures ranging from 500°C to 1000°C
- **Ergonomic Design**  
Flexible structure allows freedom of movement and comfortable wear
- **CE-Certified Safety**  
Complies with European standards for reliable workplace protection

### Key Advantages

- **Maximum protection for workers exposed to extreme heat**
- **Minimizes heat stress for safer working conditions**
- **Flexible and comfortable design supports long-term use**

### Application Areas

- **Industrial settings with furnaces and casting pots**
- **Iron, steel, and aluminum production facilities**
- **Heavy industry and high-temperature operations**

WOLFGUARD ALZ-4530 delivers dependable heat protection and ergonomic performance—making it an essential solution for professionals in high-risk thermal environments.
