EP-2860

WOLFGUARD EP-2860

Enhanced Cut Resistance for Precision Work

Engineered for delicate tasks with elevated safety demands, the EP-2860 combines tactile finesse with reinforced protection. Its premium goatskin palm and Para-Aramid lining ensure both control and durability—ideal for professionals working in high-risk environments.

Product Features

- Cut Protection for Precision Tasks
Specially designed for fine mechanical work where cut hazards are present
- Premium Goatskin Palm
Thin and flexible leather offers excellent tactile sensitivity and fingertip control
- Para-Aramid Inner Lining
Provides added resistance to cuts and high temperatures
- Breathable Nylon Back
Promotes airflow for extended comfort during long shifts
- Elastic Wrist Design
Ensures a secure, ergonomic fit
- Scratch- and Smudge-Free Contact
Safe for handling sensitive surfaces without leaving marks

Key Advantages

- Superior control and protection in precision applications
- Durable against cuts and heat exposure
- Breathable structure supports long-term wear and comfort

Application Areas

- Fine assembly and mechanical operations
- Industrial processes with cut hazards
- Professional environments requiring ergonomic and safe handling

WOLFGUARD EP-2860 merges precision and protection—delivering maximum performance for professionals who demand safety without compromising dexterity.
