

EP-2880

WOLFGUARD EP-2810

Superior Comfort and Durability for TIG Welding and Precision Assembly
Designed for professionals who demand both finesse and resilience, the EP-2810 offers exceptional control and protection in delicate industrial tasks. Its premium goat leather construction and ergonomic design ensure reliable performance in high-precision environments.

Product Features

- Precision & Comfort
Provides excellent control and comfort in TIG welding and fine assembly operations
- Superior to Nitrile Gloves
Offers enhanced protection and comfort for tasks requiring meticulous craftsmanship
- Premium Leather Quality (0.9 mm – 1.1 mm)
Crafted from top-grade goatskin for flexibility and durability
- Hidden Stitch Technology
Reinforced with Para-Aramid threads for long-lasting resistance to cuts and heat
- Protection Against Molten Metal
Enhances safety during welding operations

Key Advantages

- Outstanding control and comfort in precision tasks
- Strong protection against cuts, abrasion, and high temperatures
- Ergonomic design ensures long-lasting comfort during extended use

Application Areas

- TIG welding and precision assembly
- Industrial manufacturing and metalworking
- Professional environments requiring safe, long-duration performance

WOLFGUARD EP-2810 puts precision and durability at the forefront—delivering a dependable solution for professionals working in high-sensitivity, high-risk environments.
