

## EP-3410

### WOLFGUARD EP-3410 Electrode Pouch

#### Secure and Durable Storage Solution for Welding Electrodes

Designed for industrial welding environments, the EP-3410 offers safe and long-lasting storage for electrodes. Its reinforced construction and premium leather build ensure protection against heat, abrasion, and mechanical stress—making it a reliable companion for professional welders.

#### Product Features

- Hidden Stitch Technology
- Reinforced with Para-Aramid threads for enhanced resistance to cuts and burns
- Purpose-Built for Welding Electrodes
- Optimized for safe transport and secure storage of electrodes
- Industrial-Grade Durability
- Suitable for molten metal and all welding operations
- Premium Leather Quality
- Made from 1.2 mm – 1.4 mm thick cowhide, odor-free and hypoallergenic

#### Key Advantages

- Provides secure and organized storage for welding electrodes
- Long-lasting protection against heat and mechanical damage
- Compatible with heavy-duty industrial and welding environments

#### Application Areas

- Industrial welding operations
- Electrode storage in heavy manufacturing settings
- Professional use requiring safe and durable storage solutions

WOLFGUARD EP-3410 combines rugged durability with ergonomic design—delivering a trusted solution for professionals who prioritize safety and efficiency in electrode handling.
