

## EP-35

WOLFGUARD EP-35: Profesyonel Kaynakçılar İçin Üstün Koruma ve Konfor

### WOLFGUARD EP-35

Reliable Protection and Comfort for Demanding Welding Applications

The WOLFGUARD EP-35 is designed to meet the needs of professionals working in high-risk environments. With premium cowhide leather, Para-Aramid stitching, and a soft ergonomic lining, it offers maximum protection without compromising comfort.

#### Product Features

- High-Quality Cowhide Leather  
1.2 mm – 1.4 mm thick for optimal flexibility and protection.
- Cut and Burn Resistance  
Hidden-stitch technique with Para-Aramid thread ensures enhanced durability.
- Ultra-Soft Inner Lining  
Ergonomically designed for long-lasting comfort.
- Odor-Free & Hypoallergenic  
Made from safe materials for a clean and irritation-free experience.
- Ideal for Welding and Molten Metal Work  
Provides excellent protection for professional-grade tasks.

#### Key Advantages

- Maximum protection and durability in harsh working conditions
- Ergonomic comfort for extended use
- Trusted performance in industrial and heavy metal operations

#### Application Areas

- Industrial welding and metalworking
- Heavy industry environments
- Work conditions involving exposure to cuts and high temperatures

WOLFGUARD EP-35 combines rugged durability with ergonomic comfort, making it a dependable solution for professionals who demand safety and performance in every shift.
