EP-4520

WOLFGUARD EP-4520

High-Performance Assembly Glove Offering Superior Heat and Cut Resistance
Designed for industrial professionals, the WOLFGUARD EP-4520 combines advanced materials and ergonomic design to deliver exceptional protection and comfort in high-risk environments. Reinforced with Para-Aramid stitching and Kevlar lining, it's built to withstand heat, cuts, and heavy-duty tasks.

Product Features

- **Hidden Stitch Technology**
Reinforced with Para-Aramid thread for enhanced resistance to cuts and burns, ensuring long-lasting durability.
- **Premium Cowhide Leather**
1.2 mm – 1.4 mm thick, odor-free and hypoallergenic for safe, durable performance.
- **Kevlar® Lining Protection**
Integrated inner lining offers extra safety against heat and sharp objects.
- **Denim Fabric on Back of Hand**
Breathable design promotes airflow and reduces perspiration.
- **Ultra-Soft Inner Lining**
Provides lasting comfort, even during extended use.

Key Advantages

- Superior protection in demanding industrial environments
- Ergonomic and flexible design for unrestricted movement
- Ideal for tasks involving exposure to heat and sharp materials

Application Areas

- Heavy industry and industrial maintenance
- Glass manufacturing and steel production
- Work environments with high heat and cut hazards

WOLFGUARD EP-4520 is a trusted solution for professionals who require maximum safety and comfort in challenging conditions. Its advanced construction and thoughtful design make it an essential part of any industrial PPE lineup.
