

## EP-4550

### WOLFGUARD EP-4550

#### Maximum Durability and Comfort for Extreme Working Conditions

Engineered for the harshest industrial environments, the EP-4550 delivers superior protection, ergonomic comfort, and long-term performance. Its premium cowhide construction and extended cuff design make it a trusted choice for professionals in heavy-duty applications.

#### Product Features

- Specialized Design for Demanding Work Conditions

Provides high durability and protection in extreme industrial settings

- Top-Grade Cowhide Leather

Soft texture ensures freedom of movement and comfortable wear

- Hidden Stitch Technology

Reinforced with Para-Aramid threads for cut and burn resistance

- Extended Cuff Length

Offers maximum protection during welding and molten metal operations

- Premium Leather Quality

Made from 1.2 mm – 1.4 mm thick cowhide that is odor-free and hypoallergenic

#### Key Advantages

- High protection against extreme heat and metal splashes

- Ergonomic design ensures comfort during prolonged use

- Durable and safe construction for heavy industrial environments

#### Application Areas

- Welding and metalworking operations

- Industrial production and heavy manufacturing

- Technical tasks requiring professional-grade protection

WOLFGUARD EP-4550 is built to perform under pressure—delivering reliable safety and comfort for professionals working in the toughest conditions.
