

## EP-4580

### WOLFGUARD EP-4580 Leg Guard

#### Maximum Protection and Flexibility for Heavy-Duty Work

Designed for extreme industrial conditions, the EP-4580 leg guard offers superior heat resistance, ergonomic comfort, and customizable fit. Made from premium cowhide and reinforced with Para-Aramid stitching, it ensures reliable protection without compromising mobility.

#### Product Features

- Built for Harsh Work Environments

Provides maximum protection in the most demanding industrial settings

- Top-Grade Cowhide Leather

Soft texture allows unrestricted movement and comfortable wear

- Custom Length Options

Tailored leg coverage available to meet specific usage needs

- Hidden Stitch Technology

Reinforced with Para-Aramid threads for long-lasting cut and burn resistance

- Extended Design

Optimized for welding and molten metal operations

- Premium Leather Quality

Made from 1.2 mm – 1.4 mm thick cowhide that is odor-free and hypoallergenic

#### Key Advantages

- Exceptional protection against high heat and metal splashes
- Flexible and ergonomic design for comfortable long-term use
- Durable and reliable solution for heavy industrial environments

#### Application Areas

- Welding and metalworking operations
- Industrial production and heavy manufacturing
- Technical tasks requiring professional-grade leg protection

WOLFGUARD EP-4580 Leg Guard delivers a perfect balance of safety and flexibility—trusted by professionals who work in the toughest conditions.
