

EP-7545

WOLFGUARD EP-7545

Welding Glove Offering Superior Durability and Comfort

Designed for precision and protection in demanding industrial environments, the EP-7545 combines high-performance materials with ergonomic finesse—making it the ideal choice for professionals who require both safety and tactile control.

🔧 Product Features

- Hidden Stitch Technology

Reinforced seams with Para-Aramid threads offer long-lasting resistance to cuts and heat

- Molten Metal & Welding Ready

Heat-resistant structure ensures a safe working environment in high-temperature conditions

- Premium Leather Composition (1.2 mm – 1.4 mm)

Made from odor-free, hypoallergenic cowhide and goatskin for maximum durability and comfort

- Palm Reinforcement

Broad reinforcement over goatskin palm enhances durability and extends glove lifespan

- Maximum Tactile Sensitivity

Finger design allows for precise handling and improved dexterity during detailed tasks

- Ultra-Soft Inner Lining

Ergonomic and comfortable lining supports extended wear without discomfort

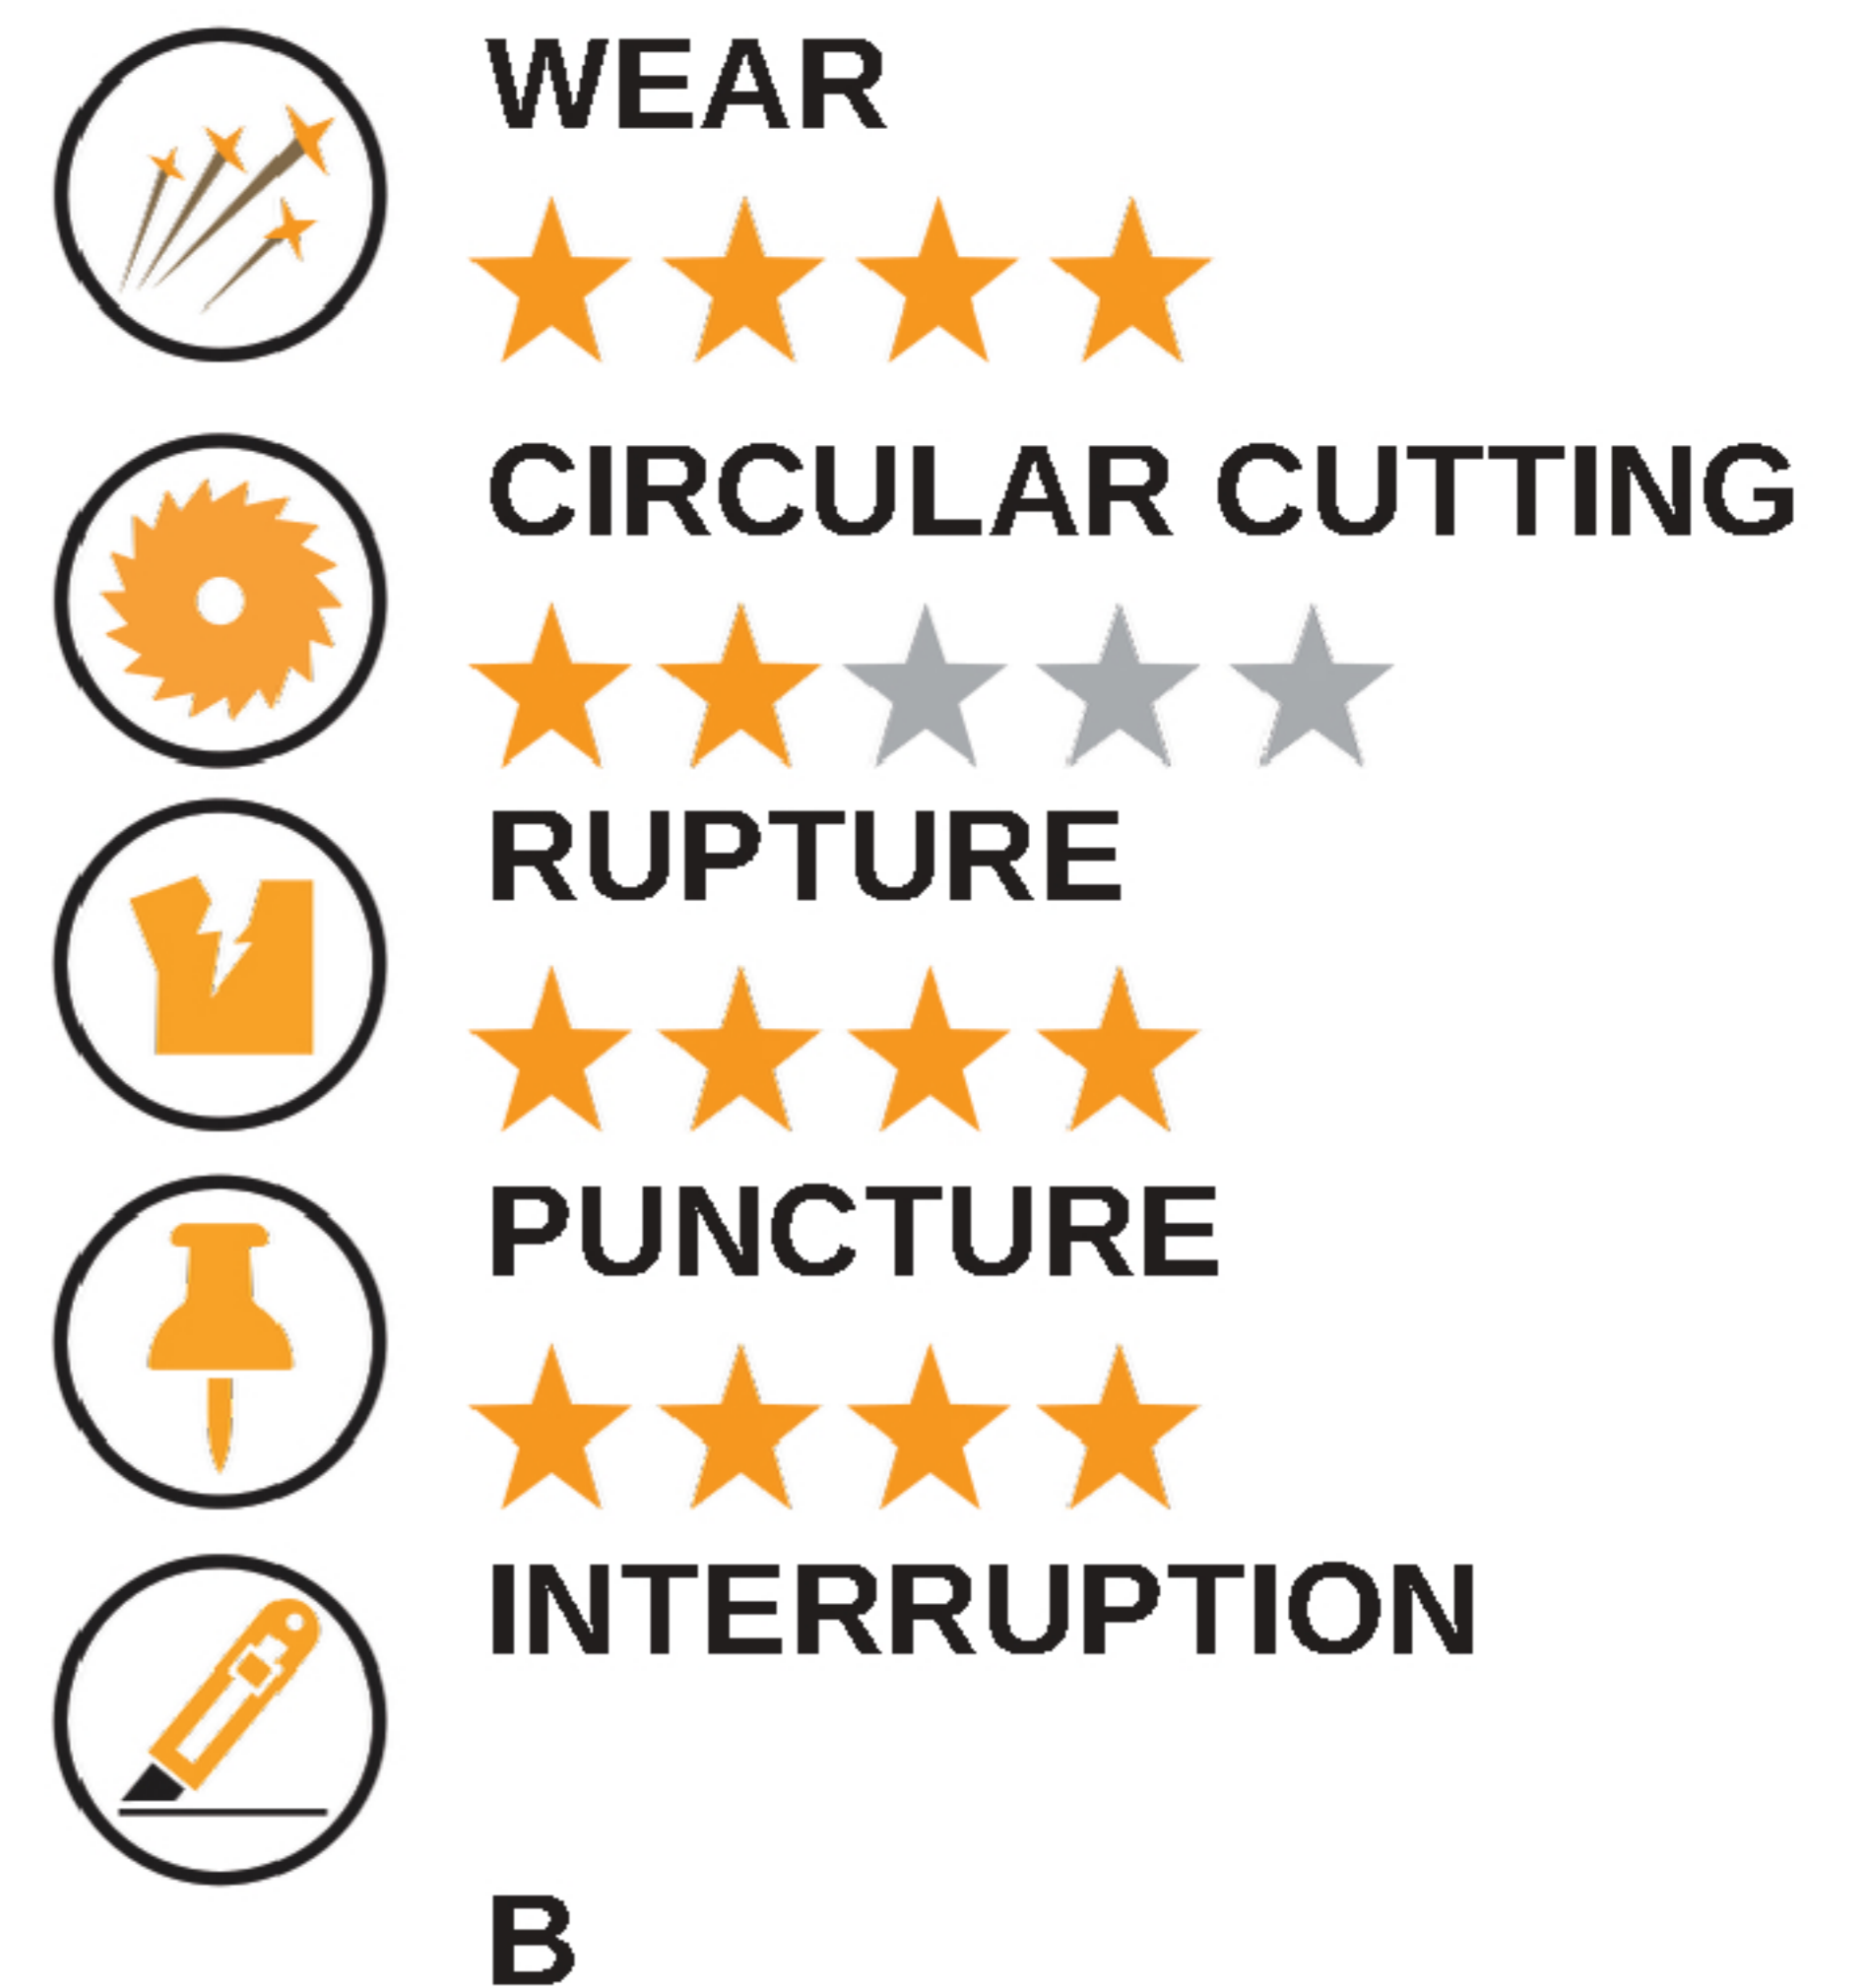

✅ Key Advantages

- Maximum protection against abrasion and cuts thanks to reinforced construction
- Ergonomic and flexible design ensures a comfortable user experience
- Durable materials and safety features tailored for industrial work environments

🔧 Application Areas

- Welding and molten metal operations
- Heavy industry and industrial maintenance
- Technical work environments requiring precision and protection

WOLFGUARD EP-7545 delivers a reliable solution for professionals who need both resilience and comfort in challenging tasks—where safety meets sensitivity.
