EP-8220

WOLFGUARD EP-8220

Superior Comfort and Protection for Precision Tasks

Specially designed for TIG welding and fine assembly work, the EP-8220 offers a perfect balance of sensitivity and durability. Its premium leather construction and ergonomic design ensure reliable performance in demanding industrial environments.

Product Features

- TIG Welding & Precision Work Design
Optimized for delicate tasks requiring high comfort and control
- Premium Leather Composition (0.9 mm – 1.4 mm)
Made from top-grade split cowhide and goatskin for flexibility and durability
- Hidden Stitch Technology
Reinforced with Para-Aramid threads for long-lasting resistance to cuts and heat
- Extended Cuff Design
Provides maximum protection against molten metal splashes

Key Advantages

- Exceptional control and comfort for precision applications
- High resistance to cuts and abrasion with a protective build
- Ergonomic fit for long-term comfort in extended work sessions

Application Areas

- TIG welding and precision assembly operations
- Industrial manufacturing and fine metalworking
- Professional environments requiring safe, long-duration use

WOLFGUARD EP-8220 delivers a dependable solution for professionals who demand both finesse and resilience—making it ideal for high-precision tasks in challenging conditions.
