

[GLOVE SIZE CHART]

CHOOSING THE RIGHT GLOVE SIZE IS VERY IMPORTANT FOR MAXIMUM DEFENSE.
HERE ARE A FEW TIPS TO HELP YOU FIND THE RIGHT GLOVE SIZE YOU NEED.

Glove size further to EN 420	Hand (mm)		Glove (mm) Minimum length
	Palm circumference	Length	
6	152	160	220
7	178	171	230
8	203	182	240
9	229	192	250
10	254	204	260
11	279	215	270

COLOR-CODED CUFFS

Some glove models have cuffs knitted in different colors, allowing for size identification at the factory and matching after washing.

TESTING BEFORE USE

If the glove is too small, it will cut off circulation and restrict hand movement. Conversely, large gloves will slip at the slightest movement, making your grip very uncertain. Don't hesitate to request a sample to verify your size and fit.
