WG-201 TOUCH

WOLFGUARD WG-201 TOUCH
Advanced Technology in Precision, Cleanliness, and Durability

Highlights

WG-201 TOUCH combines the precision, cleanliness, and technological compatibility demanded by modern work environments—offering professionals a powerful solution.

Technological Features

- Nitrile Coating Technology
Delivers long-lasting performance and high durability under tough conditions.

- Light-Colored Liner & Coating

Ensures a hygienic, stain-free appearance for a clean and professional look.

- Superior Anti-Slip Grip

Maintains maximum control even on oily and slippery surfaces.

- Touchscreen Compatibility

Enables seamless interaction with devices—no need to remove gloves.

- Ergonomic Structure

Provides comfort and resilience during extended use.

Key Advantages

- Long-lasting use with high abrasion resistance
- Ideal for clean, mark-free tasks and precision work
- Safe handling on slippery surfaces
- Compatible with touchscreen devices—perfect for modern workflows

Application Areas

- ◆ Assembly & Precision Work
- ◆ Industrial Maintenance & Technical Operations
- ◆ Oily and Slippery Environments

WG-201 TOUCH offers more than protection—it delivers comfort, precision, and professionalism. With WOLFGUARD quality, every detail makes a difference.
